MODERN IDEAS.

Some Things Which This City Needs and Must Have.

Ruminating about Greensboro and her growth and her possibilities we have jotted down the following items and submit them as improvements that must come before it can be a first-class city:

Electric street cars to all parts of the city.

A well regulated city market house to be kept clean and inspected daily.

A street superintendent to ride over the streets daily and see that the driveways and sidewalks are kept properly repaired and clean, and that all goods boxes and other obstructions are kept off the sidewalks.

See to it that all back lots are inspected monthly, at least, and that they are kept clean and that all sanitary laws are strictly enforced.

A well regulated auction house, up-to-date and modern in its appointments.

An association of business men and taxpayers to be formed to keep proper and equitable rates of freight to this city.

Good city parks for drives and a place for recreation and exercise for the little folks and nice walks for the ladies.

A committee to condemn all old delapidated buildings and fire traps,

These and many other things, some of which we have already mentioned and others we will talk about later, are necessary to the growth and development of the city. Let everybody "get a move on" and rustle for the upbuilding of Greensboro.

Repair and paint and beautify. Do all you can to make your streets, your homes and your places of business attractive. Talk for and advertise Greensboro. All pull together and among other things do not forget the motto: "More manufactories for Greensboro."

Is it a Nuisance?

The drain from the pump just south of the C. F. & Y. V. railroad makes a constant mud hole and a most filthy looking place down near and alongside the railroad track. Not long ago a small pipe further down South Elm street burst and a small stream of clean water was oozing out. The sanitary policeman called on the lady who lives there and wanted to know the why and the wherefore of that water. It had only been running a few hours and the plumber was already engaged to repair the break.

If that was a nuisance and demanded the attention of the sanitary officer, this constantly running and muddy branch from the well is a ten times greater nuisance and should be looked after.

There is also a break in the water pipe at the plug on the corner of South Elm and East Washington streets. If a burst that does not cause water to run twenty yards demands the attention of an officer, surely a break that makes a running stream for a hundred yards or more should also claim the notice of the worthy sanitary policeman.

The First Regiment Leaves.

The first regiment of North Carolina volunteers has been ordered to Tampa and leaves Raleigh today.

The railways have completed the arrangements for transportation of the troops. The field and staff, field music and first battalion go by the Southern Railway, the third battalion by the Seaboard Air Line and the Second by the Atlantic Coast Line.

It is expected that the division coming this way will arrive here about 6:30 p. m. but will probably be later. The railroad officials have received no notice and cannot tell at what hour the troop train will arrive.

Marriage at the McAdoo.

There was a romantic marriage in the parlors of the McAdoo this afternoon at 2:30, the contracting parties being Mr. E. M. Hollingsworth and Miss Holcomb, of Mt. Airy. The groom arrived last night, the bride and a party of friends, among whom was the officiating minister Rev. Dr. Banner, of Mt. Airy, arrived in the city on the noon train. The party including the bride and groom returned to Mt. Airy at 3:10.

The Monument Fund Grows.

The Worth Bagley monument fund continues to grow rapidly. The patriotic movement has met with a most hearty response. Yesterday $120 was added to the fund bringing the total up to $752.10. All receipts are acknowledged through the Raleigh Post to which remittance should be made.

Spanish Fleet Reported Near Costa Rica -- A Supposed Cablegram From Admiral Sampson.

Madrid, May 19—A dispatch received from Havana says that Santiage de Cuba has been bombarded by American war vessels. It adds that the damage to the town was slight.

Santiago de Cuba is in the extreme southeastern part of the island as is the most important part on the southern coast east of Cienfuegos.

THE AMERICAN VERSION.

Washington, May 19—Semi-official advices received here confirm the report that Santiago de Cuba has been bombarded. It is said that the Puritan, Amphitrite and Minneapolis attempted to cut the cable at that point and were fired on by the forts. They responded doing slight damage.

WAS IT FROM SAMPSON?

Washington, May 19—Secretary Long this morning received a cipher cablegram the nature of which, under the new regulations, could not be revealed but there are good reasons for believing it to be from Admiral Sampson.

ARTILLERY FOR TAMPA.

New York, May 19—Battery M, heavy artillery, left fort Hancock this morning for Tampa to join the Cuban army of invasion.

THE JASON TO NEW YORK.

Philadelphia, May 19—The monitor Jason started to New Xork this morning. The monitor is manned by New York naval reserves and is intended for the defense of the harbor.

HARVARD SAILS.

Washington, May 19—Little credence is given the story that Senor Polo y Bernabe has secured a Spanish coaling station at Miquelon, Newfoundland.

STILL A SECRET.

Washington, May 19—A second cablegram was received this morning from Captain Clark of the battleship Oregon. The whereabouts of the Oregon, Marietta and Buffalo are still kept a secret with the department officials.

General Miles wants 130,000 Krag-Jorgensen rifles immediately.

WHERE THE FLEET IS TODAY.

Colon, May 19—The newspapers here say that the Spanish fleet is now near Costa Rica. Costa Rico is nearly 1,000 miles directly west of Curacao the last port made by the squadron.

CHARLESTON RETURNS.

San Francisco, May 19—The Charleston sailed back to Mare Island to repair some damage done her condenser.

It is a Good Thing.

A day or two ago we mentioned the the incorporation of the Greensboro Barrel Crane company. This crane or swing is destined to revolutionize the handling of heavy barrels in grocery stores. The following testimonial from one of our most progressive local grocerymen will tell you something of its merits:

Greensboro, May 18, 1898.

Mr. J. W. B. Collins,

Dear Sir:—I am using four of your improved barrel swings and like them well. I would not be without them for several times their cost. It will pay any groceryman to give it his attention, as it keeps the barrel out of the way and prevents trash from falling into the sugar. You are at liberty to use this testimonial in any way you see fit, to advertise your swings. Wishing you succes,

I remain very respectfully,

S. E. Hudson.

MONTGOMERY CRIPPLES CRUISER

City of Pekin Sails Tomorrow—A German's Spanishy Tale—Rush Orders for Rifles, Cartridges.

By Wire to THE TELEGRAM.

Washington, May 19—The strain and anxiety still continues here. It is gathered that a big naval battle is expected south of the Florida peninsula this week. The greatest secrecy as to the whereabouts of Sampson's squadron and also that of Schley are observed. It is currently believed here that the administration is winking at a number of the unfounded rumors started for the purpose of misleading Spanish spies.

THE PEKIN SAILS.

San Francisco, May 19—It is reported here that the City of Pekin leaves tomorrow for Manila having three thousand troops on board.

GERMAN SNAKE YARN.

Key West, May 19—The German steamer Cenetia reports seeing the Spanish fleet coaling at Martinique on the 16th instant.

A REPORTED GERMAN INSULT.

MORE TROOPS.

Chickamauga, May 19—The first Kansas and the fifth Pennsylvania regiments arrived here this morning and went into camp.

Bismarck Critically Ill.

By Cable to THE TELEGRAM.

Berlin, May 19—Prince Bismarck is in a much more critical condition today. Doctor Schweninger has been hastily summoned to his bedside. His extreme old age and the disagreeable weather incsease the apprehension of his friends.

Fired on English Soldiers.

By Cable THE TELEGRAM.

Gibraltar, May 19—Several British soldiers from the fort were out boating yesterday afternoon and attempted to land on Spanish soil. The sentry fired on the party wounding one man.

Tennis Game Tomorrow.

The Greensboro Tennis Club will send a delegation out to engage the Guilford College boys in a game for the local championship tomorrow. Messrs. Hal. Mebane, J. Simpson Schenck, Lee Wharton, and Robt. D. Douglas will make up Greensboro's team. They are all handy with the racquet and a good game may be expected.

Not Ready to Fight Us.

London, May 17—With reference to the Spanish cruiser Princess de Asturias having arrived off Martinique, as was reported yesterday, a letter mailed at Cadiz on May 5th and received in London on May 9th, describes her as lying at Cadiz alongside a wooden frigate.

She was having her masts put into position and had recently had her machinery aboard, but in other respects the work of fitting her for sea was in a most backward state.

THE CIVILIZED WORLD MOURNS

The Death of Englands Great Commoner.

By Cable to THE TELEGRAM.

Hawarden, May 19—The news of Gladstone's death was spread rapidly throughout the country by the tolling the church bells. The only absentee during his last moments was little Dorothy Drow, his favorite grand child. The end was the most peaceful imaginable. Doctor Dobie took leave of Mrs. Gladstone at nine o'clock. She bore up nobly. Drs. Bliss and Dobie and Henry Gladstone are preparing a statement of his last hours.

The members of the family attended early communion in Hawarden church conducted by Rev. Stephen Gladstone. It was the ordinary service prefaced with selected prayers from the burial service. The Queen, the Prince of Wales and Ambassador Hay sent expressions of condolence to the widow. Telegrams are coming in from important personages throughout the civilized world.

The Late Spanish Minister.

Ottawa, Ont., May 18—In the House of Commons tonight, Mr. Charlton made an attack on Polo, declaring that Spanish spies under him had crossed over into the States.

Mr. Laurier, in reply to a query whether he had done anything to prevent this, guardedly declared that he had not done anything to hasten Polo's departure.

Polo declared today that he would leave Saturday.

AMERICAN ISOLATION.

It was the experience of the sailors on the Oregon and Marietta that at every port at which they touched on their long voyage around the Cape there was a strong manifestation of hostility to them. The ordinary form of salutation was "Yankee dogs"—a slight but not material variation from the phrase of endearment usually employed by the mother country. It revealed the fact that as a nation the United States is as much isolated on this side of the water as is England on the other. With the possible exception of Russia and Mexico there is not a nation on the globe speaking a different language from us that is friendly toward us. It may not be intentional on the part of the rest of the world but it is none the less a fact that by its open hostility it is supplementing the tendency of blood and language to draw England and America together. And when that alliance is consummated the destiny of the world will pass into its keeping. With all their acumen the statesmen and diplomats of continental Europe have blundered—and the blunder is worse than a crime for them for it is irreparable. They have shown their hands too early in the game. Now the game is for other hands to play. If Europe had sought deliberately for the worst possible policy it could have found nothing beyond a policy whose legitimate fruit would be an Anglo-American alliance. This is nowhere more fully appreciated just now than at Paris, Berlin, Vienna and St. Petersburg. But the mischief has been done. The alliance already exists in spirit.

What ails American journalism? Why have the despatch boats not located the enemy's squadron? There would be a most excellent opportunity to tell through eight pages what all the senators and cabinet officers at Washington thought of the exploit and then all the governors could be interrogated by telegraph. The yellow journal must be undergoing a bleaching process.

It is a bit strange that one heard nothing until today about the bombardment of San Juan. Are there no newspaper men in Porto Rico? Have European press agencies no representatives there? It was interesting to hear from a source other than Spanish of the effects of the three hours hail of steel to which the fortifications were subjected.

If all American women were to join the boycott of French milliners there would come up such a growl as has not been heard in gay Paree since the commune. The few Spanish bonds held there are a small item compared with the hard shekels that go abroad for imported millinery.

That a Spanish fleet should dodge the squadrons in southern waters and bombard New York or New England ports is about as probable as that it will bombard Nashville or Omaha.

The withdrawal of the fast cruisers from the New England coast will be followed by a chilly sensation not born of the east wind. Every fishing smack creeping harborward at dusk will become an enemy's cruiser bristling with cannon and vengeance dire. Even the "Women o' Marblehead" will give Floyd Ireson a rest.

Meantime let the Oregon hurry along; it is possible that she may come in handy when the warships go up against the Krupp guns defending Havana—manned meantime by French and German artillerists smuggled in as newspaper correspondents on ships allowed to pass the blockade "as a courtesy."

The Honorable Chauncey Depew has announced himself as opposed to the annexation of Hawaii. The Honorable Chauncey's views are doubtless materially influenced by the palpable inconvenience in extending the New York Central railway to those parts.

Pulitzer and James Gordon Bennett are in Paris where Americans are crowded off the sidewalk, but, for the glory of America be it said as yet their ribs have safely run the gauntlet of French elbows. Even a Frenchy knows they are not Americans.

Hr. Hearst had no difficulty in scoring against Pulitzer but when he ran up against the newsboy boycott he had to come down from his perch. The newsboys are the ones who sell the "poipers" after all.

If bull frogs lived out in mid ocean the "terrific cannonading" that so abounds lately were easy to explain but as it is the landsman's imagination retires from the scene completely baffled.

The Maekay-Duer wedding having been duly celebrated the couple, after the manner of New Yorkers of their class, will make the next bid for fame through the divorce court.

The spider continues his cordial invitation to the fly to walk in but so far the fly exhibits a coy reluctance.

Gladstone is Dead.

Hawarden, May 19—Mr. Gladstone died at 5 o'clock this morning. He had been unconscious praetically all day, though at times he seemed to recognize for a moment some of the watchers about him. Certainly he did not recognize his wife who was beside him all day except when the physician prevailed upon her to rest. She tenderly clasped her husband's hand as she watched him. Apparently he slept a good deal; occasionally he uttered a few words in an incoherent, dreamy way, words which those who were watching were unable to catch. Their only consolation was that he was not suffering pain. No narcotics were administered.

Though a national funeral will probably be accepted by the family. there is little doubt that the remains of Mr. Gladstone will be laid to rest in the peaceful graveyard at Hawarden, adjoining the church, where he was married more than half a century ago. At Hawarden the happiest portion of his life was passed, and it is truly a retreat sweet enough for any laborer. William Ewart Gladstone was born Dec. 29, 1809.

TO LEVEL COAST DEFENCES.

Orders Have Been Sent to Watson to That Effect.

Washington, May 18—Orders have been given Commodore Watson, in command of the blockading fleet, to level all fortifications along the Cuban coast. This is believed to foreshadow a movement looking to the evacuation of Cuba as soon as Admiral Sampson and Commodore Schley shall have been able to capture or destroy the Spanish squadron, and it will incite the Spanish Admiral to come to Blanco's relief if anything can drive him from his apparent purpose of annoying and harrassing without making an effective stroke.

The fact that the order was sent to Commodore Watson is an indication that Sampson and Schley are to be left free to search out the wandering squadron which has just left Curacoa, and it is believed that Schley and Sampson will soon be able to bring the tantalizing uncertainty with regard to Cervera's movements to an end.

SPANISH PRISONERS PROTEST.

Weyler's Brother-in-Law Not Satisfied With His Treatment.

Atlanta, Ga., May 17—The Spanish prisoners of war confined at Fort McPherson have made a formal protest to the post commander through Col. Cortejo, Weyler's brother-in-law, against the manner in which they are being treated. The communication reads:

"We are officers and gentlemen, prisoners of war, not convicts. We are being treated like criminals, locked up and deprived of air and sunshine, instead of being paroled and allowed to go about the grounds as we please. Were the conditions reversed we would not be guilty of treating officers as we have been treated in this respect. We are taken along paths to our meals where we must be stared at and commented on like dime museum freaks. We are three times daily exposed to the sneers and curious gaze of idlers who, forgetting that we are gentlemen, confound us with those of our countrymen who have not conducted themselves in such a way as to merit the application of this title." The Colonel declares, however, that he and his comrades are soldiers, and "that if necessary they can endure indignnity like men."

General News in a Nutshell.

Nansen was much lionized during his recent visit at St. Petersburg. He was the guest of honor at an especially notable dinner, and was presented with the Grand Cordon of the Order of St. Stanislas. He started for Norway on April 30.

George Jacob Holyoke, of England, says that he was the first person to use the word "jingo," which he did on March 13, 1878, in a letter to the London Daily News.

Extensive preparations have been made for a big celebration in Peeksville, New York, on June 17, which is the anniversary of the battle of Bunker Hill. The occasion will be the dedication of a monument erected by the Sons of the Revolution to the memory of General Seth Pomeroy, who is buried somewhere in Hillside Cemetery, Peekskill, the exact spot not being known.

Public opinion against Macola, the Italian deputy who killed Signor Cavalatti in a duel not very long ago, has compelled that official to leave the country for a time. He recently added to the popular indignation by printing in his paper an insulting letter addressed to Professor Edward Vivante, whose children has made so much noise in playing in the apartment above that occupied by Macola as to disturb the Deputy's rest.

The Poughkeepsie (New York) Eagle asserts that this country has now won the right to give the Philippine Islands a new name, and suggests that they should be called Dewey Islands hereafter, inasmuch as "we do not want any good American soil named after that old brute Philip II of Spain."

The Russian government has been petitioned for 45,000 rubles for the purpose of feeding 10,000 starving school children for 6 months.

An enterprising Mississippi newspaper of recent date contains the following item: "Shot—The boy that was shot in new town this week worked at John Gardner's butcher shop, but the particulars were not received in time to give full explanation of the case, but we will look into it next week."

The readers of Madrid newspapers have doubtless been informed by this time that the Winslow was the largest and most formidable battleship in the United States navy.

The Austro-Hungarian Government is threatened with an additional burning question in the growth of the sect of the Nazarenes. These people, whose tenents with regard to military service closely resemble those of the English Friends and the Russian Mennonites, refuse to perform the military duties imposed upon them.

A Missouri preacher, who has pointed out the path of righteousness to several congregations in his native state during the past twelve years, has just pleaded guilty in the United States court at Kansas City to defrauding members of his latest flock by means of the "green goods" game.

A Mrs. Barnesley, of Lamar, Mo., possesses a highly valued heirloom in the shape of a volumn entitled "A Dictionary of all Religions, Christian, Jewish or Pagan," which was printed in 1704. It is paged by hand and bound in well-preserved leather. The book was brought over from Ireland by Mrs. Barnesley's grandfather.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, constipation, dizziness yield to Electric Bitters. 50c. and $1.00 per bottle at C. E. Holton's drug store.

Notice to Delinquents.

Considering the duty of Sheriffs of this state in regard to furnishing a list of all delinquent tax payers to the Superior Court Judge, I respectfully urge and advise all to pay their taxes on or before the first day of our June term of court; 1897 taxes become delinquent March 5th, and June term is the first court following such delinquency. Not knowing what action will be taken by the court, I give fair warning to all concerned, and hope the list will be small.

Very repectfully,
m 18 2t J. A. Hoskins, Sheriff.

So Tired! So Tired!

Chronic Dyspepsia!

For ten years I had been a severe sufferer from chronic dyspepsia, which was pronounced incurable. I was completely run down, and in the summer season was not able to do anything and spent a great part of the time lying down. I could not touch meat of any kind, or any solid food whatever, as I could not digest it at all and had to live on crackers and light diet. I was very nervous, would have severe nervous spells, and could not get any natural sleep, I was so restless. I suffered all the time from chronic dysentery, which kept me weakened down. That was my condition when I determined as a last resort to try Mrs. Joe Person's Remedy. I had tried so many treatments and so many patent medicines without benefit that I had no faith in anything and had almost made up my mind not to try another thing, when Mrs. Person came to my house last April and induced me to try her Remedy. I bought 1 dozen bottles. Felt no relief whatever until I was on the fourth bottle, when I knew I was getting better. I became stronger, got so I could sleep well and there was no necessity for me to lie down in the day time. I took twenty-two bottles before I stopped. My digestion is now perfect, and I can eat meat, vegetables, and anything else I want, and as much as I want. When I commenced the Remedy I weighed 98 pounds, now I weigh 118 pounds. Dysentery perfectly cured, and it is all owing to Mrs. Joe Person's Remedy. It is everything claimed for it.

BUTLER IN THE SADDLE.

Populist Convention Adopts Fusion Resolutions.

The resolutions say that "Whereas, the Populist party was organized to remove the causes of hard times; that a large majority of all the voters in the county agree with the party; that the only difference is as to questions of detail and method, it is resolved that the three addresses be indorsed; that this year the co-operation of any party or faction of a party which favor the overthrow of monopoly and the addresses of the three chairmen is invited, to secure the election of nine free silver and anti-monopoly congressmen, six judges of ability and free from partisan bias; twelve fearless and impartial solicitors, and an anti-monopoly legislature, pledged to stop the giving and taking of gold mortgages, to enact a law to prevent removal of cases to Federal courts, to set aside the lease of the North Carolina railroad, to pass a law making it unlawful to receive free passes, to guarantee to counties the right to elect their own officers under proper safeguards, to provide for the election of railroad commissioners by the people, to make the commission law effective, to reduce freight, passenger, express, telephone and telegraph rates, etc."

The last clause of the resolution is: "Resolved, That this convention elect a conference committee, which shall be authorized to confer with any party or faction of a party which declares its endorsement of the above principles, and purposes and which favors co-operation with the populist party, to carry the same into effect upon such basis as will maintain intact the integrity of the people's party, and as will preserve to it not less than its present representation in both state and national affairs."

The New Dry Goods House.

Some New Points About Dry Goods.

We think it a great mistake to assume that the people are not competent to judge of quality; for we have found the greater portion competent far more than they are given credit for, and are more astute in judgment than sellers often imagine.

But the safest and best plan to acquire a knowledge of quality in merchandise of all kinds is to settle upon some house, the utterances of which you have found to be trustworthy, and study its merchandise and its statements thereabout.

Knowing how far our influence has reached in so short a space of time in this regard, we can point to the education we have given the people in quality. We began our new business by providing quality, making it an object lesson. We tell the truth about quality; honest words about honest facts. We shall always maintain quality, showing that good merchandise is what the people want, what they expect, what they appreciate and what they will buy.

This is the policy we have laid down for this new business, to educate the people to tell quality: to tell it themselves and to advise others; and this season when there is, possibly, a stronger desire than ever to keep the expenses of living down to the lowest minimum, we see the fruits of our zealous endeavors more than compensative, for our new business is constantly increasing along the lines of valid values and vigorous bargain selling.
